Why Context Matters?

Retrieval-Augmented Generation

Context Window: The Model's Memory

Good Context = Good Results

Does the new 'Aether-5' drone have 4K video recording?

User

The Aether drone series is known for its excellent camera quality. Most modern drones in its class support 4K video, so it is highly likely that the Aether-5 does as well.

Chatbot

Does the new 'Aether-5' drone have 4K video recording?

User

Context: The Aether-5 drone, launched in September 2025, features a new 1-inch sensor. This enables video capture in 6K at 30fps and 4K at up to 120fps, a significant upgrade from the Aether-4's 1080p capability

Yes, the Aether-5 drone supports 4K video recording at up to 120fps. It can also record in 6K at 30fps.
